10	RAS AL MAL (IRE)	3	Gelding	B	Haralambus H.	Xynos M.	58	58	01:30:84	18 1/4	(6)

STEWARDS REPORTS:

- STORMY ART returned with an injury at the rear right limb. Vets: Andoniou, Firipi.
- AGGELOS at the fourth step misbehaved and suddenly shifted towards the outside.
- CORAL GEM started bothered with lifted head and lost momentum.
- An observation is made to jockey Mina M. who rode KHOR AL IDAID for using the whip on this horse one hundred meters (100m) before the finish line while leading and not being threatened by the horses behind.
- The route of ADONIS and VESTAVIAN was examined as in the final straight they appear to have difficulty and cannot maintain a steady course. The jockeys and trainers of the horses were called who stated that the vision of the horses was made difficult as the transparent eye cover they had was covered with mud from the horses ahead. For confirmation of the above it was requested to bring the covers were it was certified that they were covered with mud which made the vision of the horses very difficult. The explanations are accepted but due to the above incident it is pointed that the trainers have the sole responsibility for the equipment and therefore a strict observation is made. With the occasion of this incident, trainers are informed that in similar cases where the track condition changes (as today) they will have to take precaution where necessary or there will be a disciplinary examination.
- The route and riding of jockey Xynos M who rode RAS AL MAL was examined, where the jockey appears to not push his horse before entering the straight, and after entering abandons all efforts and cuts off. About the incident, the Racing Administrator reported that when the jockey came into the dismounting area mentioned that the horse for a big part of the route gave him the impression of being lame. The horse was referred for veterinary examination which was negative clinically. When examined the jockey stated at from the 800m. sensed that his horse did not step correctly and felt that it might have been lame. During the entrance in the final straight he did not put any effort and on the contrary tried to make him lose momentum. After the Stewards examined the video of the race in detail, did find that at the 700m the horse appears to be bothered (possibly by incoming sand from the horses ahead) in spite of that, they cannot see elements of non normal racing. Therefore they partly accept the jockey's explanations and leniently ban him for one (1) race day and fine him with one hundred and fifty euros (150€) along with a strict observation. At the same time, it is noted that in the future in similar incidents, where the jockey's claims for a possible health issue of the horse during the route are not certified from a post-race medical examination, there will be a disciplinary examination according to Articles 5,6 and 7 of the penalties of the R.C.
- After a statement of the Jockey Clubs veterinary service all of today's horses had proper horse shoes, were checked before every race and were those mentioned at the Jockey Club's Official Program.
- All of the jockeys in today's races were weighed.
